Please contact us at [elarning@prescqipp.info](mailto:elarning@prescqipp.info) for further information on commissioning any courses.

Alternatively, courses can be purchased directly by individuals on the [PrescQIPP e-learning store](#). The cost of each course is detailed below.

### Available courses

Our e-learning courses are aimed at GPs, nurse prescribers, PCN and practice pharmacists and pharmacy technicians, medicines optimisation teams and community pharmacists.

Course	Cost per individual purchase
 <p><b>Anticholinergic burden</b> This course identifies how the anticholinergic burden can be assessed for individual patients and provides examples of medication reviews for those with a high burden.</p>	<b>£14.99</b>
 <p><b>Anticoagulation; stroke prevention in Atrial Fibrillation</b> This course covers NICE guideline 196; assessing stroke and bleeding risk, Anticoagulant treatment options, Choice of anticoagulant, Safe prescribing of DOACs in people with renal impairment, Co-prescribing of anticoagulants and antiplatelets and Patient information for people.</p>	<b>£14.99</b>

Course		Cost per individual purchase
	<p><b>Asthma</b></p> <p>This course covers the self-management and pharmacological treatment of asthma in adults and children, asthma guidelines (and the differences between them), the use of high dose steroids and steroid cards, the importance of review and follow up and the treatment of asthma relating to the COVID-19 pandemic.</p>	<p><b>£14.99</b></p>
	<p><b>Chronic heart failure in adults (endorsed by NICE)</b></p> <p>This course covers the diagnosis and pharmacological management of chronic heart failure and lifestyle factors, although management of acute heart failure, interventional procedures and palliative care are beyond the scope of the course.</p>	<p><b>£14.99</b></p>
	<p><b>Dependence Forming Medications</b></p> <p>This course covers the statistics around the use of DFMs, opioids, benzodiazepines &amp; z-drugs and gabapentin &amp; pregabalin. It offers practical advice regarding the initiation of these medicines and how long-term use can be reviewed and managed. Case studies and advice from two GPs with a special interest in this area support the learning.</p>	<p><b>£14.99</b></p>
	<p><b>Lipid modification</b></p> <p>The course covers cardiovascular statistics and risk factors, the recommendations in NICE Guideline 238, the drugs used to treat hypercholesterolaemia; statins, ezetimibe, PCSK9 inhibitors, bempedoic acid, inclisiran and icosapent ethyl. It considers the national lipid management pathway and how the drugs fit into the treatment pathway.</p>	<p><b>£14.99</b></p>
	<p><b>Management of type 2 diabetes in adults</b></p> <p>This course covers the burden of type 2 diabetes, Education, lifestyle and individualised care, Management of hypertension, Lipid modification and antiplatelets, Blood glucose targets, Types of hypoglycaemic drugs, Guidelines on the management of blood glucose, Cardiovascular Outcome Trials (CVOTs) and Managing complications of type 2 diabetes.</p>	<p><b>£14.99</b></p>
	<p><b>Managing medicines in care homes 1</b></p> <p>This course is designed for care homes staff and covers the role of CQC and the NICE Guideline and Quality Standards, the management of medicines in care homes and self-medicating residents. It also has modules on the administration of inhalers, eye drops, transdermal patches, topical creams and as required medicines.</p>	<p><b>£14.99</b></p>

Course		Cost per individual purchase
	<p><b>Managing medicines in care homes 2</b></p> <p>This is the second e-learning course to support care home staff involved in any aspect of medicines use. It covers refused and omitted doses, covert administration, controlled drugs, bulk prescribing, homely remedies, and waste medicines reduction.</p>	<p><b>£14.99</b></p>
	<p><b>Managing medicines in care homes 3</b></p> <p>This is the third e-learning course to support care home staff involved in any aspect of medicines use. It covers some more complex areas including Medicines and falls risk, Antipsychotic medicines in dementia, as well as Administration of oral anticoagulants, methotrexate and other cytotoxic medicines, bisphosphonates and medicines used in Parkinson's disease.</p>	<p><b>£14.99</b></p>
	<p><b>Nutrition and hydration in care homes</b></p> <p>The course covers: key standards and guidelines relating to nutrition and hydration in care homes, using the MUST tool to identify residents who are at risk of malnutrition, writing person centred nutrition &amp; hydration care plans, implementing a food based approach to managing malnutrition, information on Oral Nutritional Supplements, strategies to improve food and fluid intake in residents with dementia, managing eating and drinking in end-of-life care and strategies to reduce the risk of poor hydration.</p>	<p><b>£14.99</b></p>
	<p><b>Practice medicines co-ordinators</b></p> <p>This course is designed for non-clinical staff in GP practices who manage the repeat prescribing process. It covers: Introduction and medication basics; Information sources and prescription requirements; Electronic Prescription Service; Repeat prescribing; Medicines in care homes; Dispensing Appliance Contractors; Hospital discharge information; Formularies, traffic lights, "specials" and prescribing incentive schemes; Self-care and Community pharmacy; Diabetes, asthma and COPD.</p>	<p><b>£14.99</b></p>
	<p><b>Polypharmacy and deprescribing</b></p> <p>This course covers the concepts of polypharmacy and deprescribing, describes when polypharmacy may be appropriate or inappropriate and how this occurs. It provides practical advice on the initiation of medicines including shared decision-making with patients.</p>	<p><b>£14.99</b></p>
	<p><b>Reducing opioid prescribing in chronic pain</b></p> <p>There are growing concerns that patients are prescribed strong opioids inappropriately for chronic pain. The potential social and medical harms of opioids have been significantly underestimated. This course is an update on our previous 2018 version, reflecting the latest evidence and guidelines.</p>	<p><b>£14.99</b></p>
